

SPECIAL OFFER

The formula for successful investing

Double your investment with the Capital 200+

T & Cs apply

Valid from 27 March – 12 May 2017.

Double capital | Unlimited upside potential | Downside protection

Double capital

The Discovery Capital 200+ is designed to give your clients a minimum of double their initial capital back at the end of five years, should US and European equity markets go up by as little as 1% over the next five years. The Capital 200+ is a five year product based on a global portfolio comprising of the Eurostoxx 50 and S&P 500 indices.

Unlimited upside potential

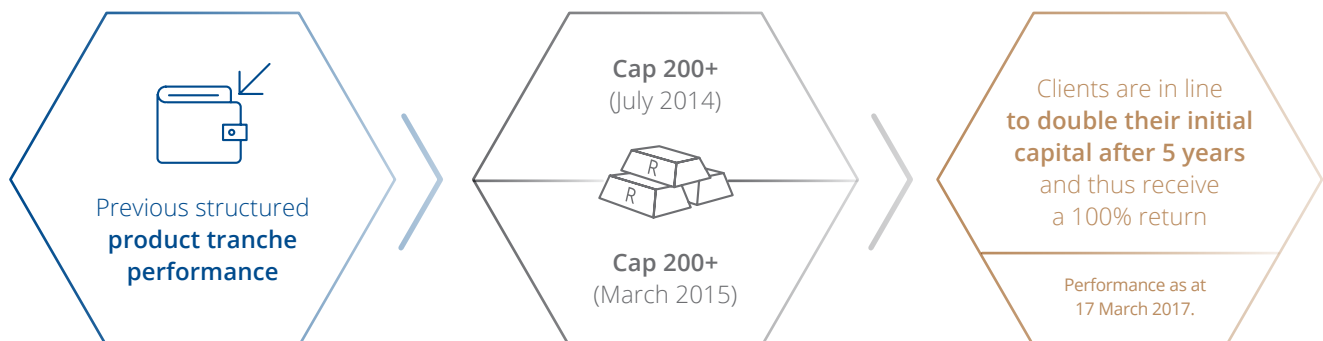

If the global portfolio provides a higher value at the end of five years than double the initial capital invested, your clients will receive the full upside return above that level.

Conditional downside protection

Should the global portfolio provide a negative return at the end of five years, your clients will receive 100% capital protection for falls in the global portfolio of up to 40%*. The capital protection does not apply in cases of falls in the global portfolio of more than 40%* and only applies at the end of the five year term.

* Figures are indicative. Final terms are subject to market conditions at date of trade. Investors are also subject to any default risk or restructure of BNP Paribas.

* The return excludes taxes, Discovery administration fees and financial adviser fees, where applicable

Important information

- **The Discovery Capital 200+ (May 2017)** is a five year product and is available as a limited offer on the Discovery lump-sum Core Flexible Investment Plan.
- This offer will expire when the limited investment capacity runs out but not later than 12 May 2017. The date of trade is 19 May 2017.
- There are no ongoing fund management fees. However, the administration fees for the lump-sum Discovery Core Flexible Investment Plan and financial adviser fees will apply. These fees will reduce the final return received.
- **The return of the Discovery Capital 200+ (May 2017) Fund** is considered capital under current tax practice.
